

Bakuchiol 98%

MILDER, NATURAL VITAMIN A SUBSTITUTE

INCI Name

Bakuchiol

Description

Bakuchiol 98% is a natural active ingredient derived from plant seeds, often hailed as plant retinol. It can diminish fine lines and tighten the skin by promoting collagen synthesis and inhibiting its degradation. It also offers multiple functions such as anti-inflammatory properties, broad-spectrum antibacterial effects, and inhibition of tyrosinase activity. As an excellent alternative to vitamin A, Bakuchiol 98% delivers a gentler skin feel.

Advantages

100%
Natural Origin
from
Plant Seeds

Gentle and
Low-irritating,
with Better
Skin Tolerance

Superior
Photostability,
Suitable for
Daytime Skincare

Multifunctional
and Applicable
to Various
Cosmetic
Applications
